## **Uninsured / Underinsured Motorist Claims**

**NO ATTORNEY'S FEES OR COSTS, UNTIL YOU WIN**

We all spend a great deal of time each and everyday traveling in our cars. Unfortunately, our local roadways are filled with drivers who are paying less attention, becoming more distracted, not being especially observant and careful while using cellular telephones, or most seriously, drinking alcohol or taking illicit drugs before getting behind the wheel of their car. We may also be injured by drivers who carried very little or no automobile insurance coverage at all!

While a serious automobile accident usually happens in a split second, it will change your life forever. I can say this with certainty, because myself and my family were involved in a terrible automobile accident years ago. While many attorneys can only experience their clients' cases from a legal perspective, I actually understand how it feels to be the victim of a terrible automobile accident which can financially and physically destroy a family.

The period immediately following such a serious accident can be overwhelming for the victims of the accident. While coming to grips with your serious injuries, you must also immediately face serious issues such as having your car repaired quickly, getting your medical bills paid properly, and obtaining immediate payment for lost wages so your family can continue paying its everyday bills. If this occurs, what happens if the driver who caused your injuries either had no insurance or did not purchase enough insurance in light of the severity of your injuries; our formidable team can and will help you immediately.

We will do everything ethical in our power to aggressively pursue your rights against the wrongdoer. In addition, we will determine whether or not you purchased uninsured/underinsured motorist coverage through your own automobile insurance carrier, or if you are covered by another member of your household's uninsured/underinsured motorist coverage which may cover you. We will proceed against the uninsured driver as well as the applicable insurance companies in order to achieve a fair pre-trial settlement or a favorable verdict after a hard-fought jury trial.

We are proud to represent victims of serious automobile accidents involving uninsured or underinsured motorist insurance coverages, and accept referrals from many local attorneys when their clients are injured in such accidents. The experience, skill, and integrity of the representation we provide our clients is confirmed by our firm's AV rating by Martindale-Hubbell, the highest and most prestigious ranking awarded by the nation's leading legal directory. Our rating is based on the confidential opinions of other local attorneys and local judges who are best suited to assess the legal abilities of our firm.

If a loved one has died, or you or a family member has been injured in a serious motor vehicle accident, we want to help.
